**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

RELATED APPLICATION DATA

[0001] This application is a continuation-in-part application of U.S. Application Serial No. 09/903,095 filed July 10, 2001.

FIELD OF THE INVENTION

[0002] The present invention relates to a system associated with one or more gaming devices by which information may be directed to one or more players of the gaming devices, and more particularly to such a system associated with a player tracking system and arranged to generate and present multi-media information to a player of the gaming device.

BACKGROUND OF THE INVENTION

[0003] Casinos and other game operators continually seek new ways to reach individual players and provide them with incentives to play their games. Promotions, bonuses and other events are directed at players to entice them to play longer or more often.

[0004] In some arrangements, these promotions or the like are presented to a player by advertising, printed flyers and the like. These types of promotions are difficult to target at a specific player or players who the casino believes are most likely to respond to the promotion. Instead, the promotion is generally directed at a large audience, with the hope that the coverage includes the particular players who will be most apt to be interested in the promotion.
